Poor controls.. The origins of the catgirls we all love, what the \u2665\u2665\u2665\u2665 are you waiting for? Buy it already.. It has the Suter 500 mmx. Worth \u00a35 alone.

Best DLC for ride 2. as of february 2017.. I liked it. It's kinda slow. More of an art than a game kinda. I do think that if it was more of an RPG or FPS it would be better? But for what it is it's okay.. Love these maps, too bad nobody play em becacase the game isn't standalone yet and not enough people play... Highly challenging and addicting action game. Dodge roll, jump, double jump your way around countless enemies while you fight them all off with your arsenal of weapons!. Amazing game! The only problem that I have is that I can't find anyone playing "online with anyone." But besides that it is alot of fun. Only get the game if you have a friend to play it with locally or online because the most fun comes out of the versus mode.. If you can overcome the annoyance of having to delete all the damn screenshots that the jump button takes after quitting the game, then it's not all that bad. At least you get to shoot people in the face.

I enjoyed this game a lot and really do love these stories Love Space makes ^_^
Keep up the good work!
8.5/10. Save your time and money.

I love clickers, I love achievements, I love multiplayer, I love RNG stuff, and I love jumping straight in without tutorials (which this has none). I think I'd have had more fun playing against a friend "flip a coin." There's no skill, there's no explanation to how anything works, it's just frustrating.

DO NOT BOTHER.

I got it in a bundle otherwise I'd return it. Blech.. Good game overall.
Looks cute, pretty short, interesting concept.
Will say this, watch your health because items that regen it are limited, especially as you progress towards the end.
Purchased it while it was on sale so I would say it was worth the buy.

Disliked how you weren't able to change the keybind setup though. no just NO NO NO. I really liked this game! The story is paced well and the scares are actually well done. 5.5!. It's just not fun in the current state.. I always liked books where you are the hero when I was younger I read many. I did not expect much from this game, but i was pleasantly surprised by the quality of the tale in general, writhing, characters, plotlines etc. I found al that i loved from those books I used to read whithout the intricate stats you had to keep track of, only the pleasure of reading a good story that I could influence. Can't wait to get another one of those, but for now i'll just replay it... differently.
8V10

Also worth mentionning that the other games related to this one are very good.
